-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --

**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## DETAILED ACTION

### *Specification*

The disclosure is objected to because of the following informalities: on page 2 of the specification, there is no U.S. patent No. #5,235,248 to AmRhein, as the applicant has asserted.

Appropriate correction is required.

### *Claim Rejections - 35 USC § 112*

The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

Claims 2-4 and 8 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

With respect to claims 2-4, there is no antecedent basis for “the internally threaded section”. Note that claims 1-4 previously recite “*the internally threaded main body section*”. Are they the same sections? Correction is required.

With respect to claim 8, there is no antecedent basis for “the bottom protruding member”.

### *Claim Rejections - 35 USC § 102*

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this Office action:

A person shall be entitled to a patent unless –

(b) the invention was patented or described in a printed publication in this or a foreign country or in public use or on sale in this country, more than one year prior to the date of application for patent in the United States.

Art Unit: 3634

Claims 1, 2, 5, and 9 are rejected under 35 U.S.C. 102(b) as being anticipated by AmRhein #6,510,599. AmRhein discloses a device for installing and removing carabiners comprised of rectangular body 12, having an internal threaded section 44 intersected by a horizontal passageway filled by screw 50 (lower protruding member), top protruding member 14, protruding bolt 22, another lower protruding member 38, and a horizontal passageway 34.

***Allowable Subject Matter***

Claims 6-8 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims. The primary reason for the allowable subject matter of claim 6 is the inclusion of the top protruding member having two intersecting grooves at opposing angles to one another. For claim 7, it is the inclusion of a conical sleeve attached to the bolt. For claim 8 it is the inclusion of the lower protruding member having two intersecting grooves at opposing angles to one another. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Hugh B. Thompson II whose telephone number is (571) 272-6837. The examiner can normally be reached on Monday thru Friday 9 am to 5:30pm.
